

DB Feud 2016 - Game 1

Rules

You are to separate into 2 teams of equal size.

In each round, a member of each team is gathered and the two are presented with a question and the number of top answers.

A player must buzz-in and give an answer. If the answer is not on the board or not the top answer, the contestant who didn't buzz in can give an answer.

The player with the topmost answer may choose to play or pass the question to the other team.

The team members must then each give an answer that fits the category. If it's on the board, the points for the answer are added to the bank. If it's not, the team gets a strike.

After three strikes, the opposing team gets the chance to give a single answer that has yet to be revealed on the board. If they get it right, they win the bank. If not, the playing team is awarded the banked points.

After 4 rounds, the team with most points gets to play the bonus round.

Warning: Some answers may not be technically correct, just popular.
